2. Restore your devices

Sometimes, you need restore the WinPAC/ViewPAC or clone all data on this one to others.

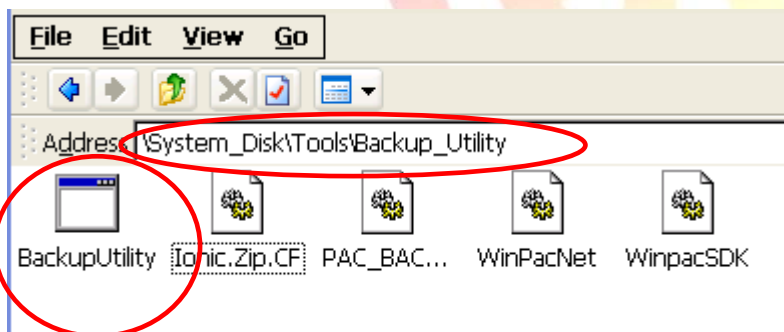

To restore the WinPAC/ViewPAC, perform the following steps:

Tips & Warnings

 Rule of restore:

1. You can use the restore function to clone the backup data to other devices.
2. When the OS version is different with backup data (ex: 1.4.2.1->1.5.0.1) you can't only restore the registry.
3. When the OS language is different with backup data (ex: English ->Chinese) and you restore the OS and the registry is maybe having problem. You maybe need to restore the registry again.

Step 1: Run the Backup utility from the \System_disk\Tools\Backup_utility" folder or download the files at ftp://ftp.icpdas.com/pub/cd/winpac/napdos/wp-8x4x_ce50/tools/backup_utility

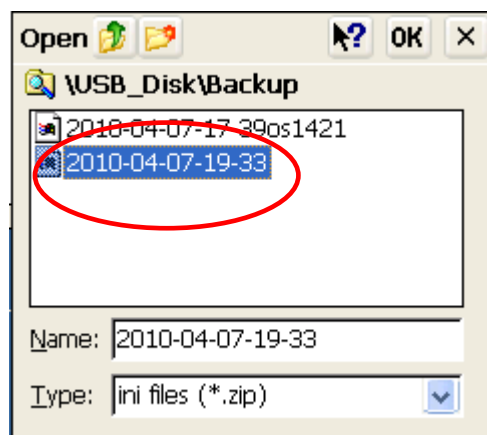

Step 2: Click the Restore menu option.
